

Here's an example of a pdf file to test my application of create file excel and csv options from a table found here. This sample has two tables.

Name	Category	Quantity	Observation
Banana	Fruit	12	A dozen
Orange	Fruit	8	

Below I've another example of another table:

Teams	Wins	Lost
Kansas City Chiefs	12	3
New England Patriots	10	5

That's all Folks!
